

## PRICELIST

# Dust extraction filters

**INDUSTRIAL DUST  
EXTRACTION SOLUTIONS**

## Formula Air

Your partner in industrial dust extraction,  
centralized cleaning and ventilation.

We are international manufacturer and distributor of industrial dust extraction products operating through sales offices in Belgium, the Netherlands, France, Germany, Sweden, Lithuania and Vietnam. Our production is performed in Europe and Asia ensuring product availability and fast delivery.

For more than 30 years our focus has been on improving air quality. We support you by providing the best air quality solutions with the right expertise, ready-to-use techniques and innovations.

### **Building long-standing partnerships with added value.**

Our involvement is a deciding factor in our value added. We take care of all production and delivery processes, give advice and share industry knowledge, leaving you free to focus on your core business. You can count on our technical expertise, product quality and cost savings.

#### **Direct service**

Our strong European presence allows us to ship out our standard stock products within 24h

#### **Consulting**

We can help you with our technical knowledge and expertise to choose the right solution

#### **Engineering**

If you are looking for a non-standard product, it can be designed & tailor-made for you by our engineers

## Formula Air duct systems in your industry

Over the last 30 years we've built up – together with our partners – a wealth of experience in providing dust extraction and ventilation solutions for a wide range of industrial sectors.

We are familiar with the specific production requirements and appropriate global and European legislation in all industries. By monitoring legalisation changes, for example on emissions, noise pollution, safety and heat recycling, we can ensure that everything we offer is up to date with the changing legislative environment.

When required, our specialists will provide you with the necessary technical support and advice on exactly which products you need for an optimum result.

### Count on us to advise you on:

- a clean & safe working environment
- technological alternatives for increased energy efficiency
- complete and sustainable solutions for air filtration
- ensured productivity & improved profitability

- Wood
- Recycling
- Plastics
- Metal
- Glass
- Paper
- Food
- Heating, ventilation, air conditioning
- Industrial air handling
- Agriculture
- Pharmaceutical
- Chemical
- Textile
- And many more...

### 30+ Years of Expertise

With over 25 years of experience in the industry, we have the necessary knowledge, expertise and tools to support ever more demanding health & safety requirements, and to provide you with a better working environment.

### Dedicated Account Managers

Our account managers support you from the first step of placing your order until you receive your products. We listen and deliver on our promises to build partnerships that add value.

### Technical Support

Our engineers and technicians can provide 2D & 3D visualizations of your project, to ensure that the project is exactly the way you want it to be.

### Extensive Range of Products

We store, source and produce dust extraction components for the wide range of applications found in any modern-day production environment.

### Fast Standard Product Delivery in EU

Most of our stock is conveniently stored in Belgium, so our deliveries reach any European country fast. With a surface area of 7 000 square meters and an average stock of 60 000 units, we won't keep you waiting when you need a solution.

### Products Conforming the ATEX Directive

We offer ATEX-certified fans and filters as well as several other products that conform to the ATEX directive to prevent explosion risks.

Our team of experts can assist you if you have never calculated a specific filter installation before. Once we know more about your needs, we can help you to calculate air volume, determine the correct filter size and select all components for a complete dust extraction solution.

## Formula Air components for complete solutions

Over the years we have developed various solutions to protect the environment and people from harmful particles, fibers, dust, gas, smoke and oil mist. Our customers benefit from having easy access to complete solutions. The high-quality duct systems we supply include:

### Ducting components

- Pipes & bends
- Branches & trousers
- Dampers & throttle valves
- Exhaust components
- Flexibles hoses
- Clamping rings & flanges

### Fans & motors

- Centrifugal fans
- Axial fans
- Motors
- Acoustics booths

### Separators & rotary valves

- Cyclones
- Separators
- Rotary valves
- Geared motors
- Cutters

### ATEX products

- Fans & filters
- Rotary valves
- Sliding & fire dampers
- Shut-off & non-return valves

For the full product range go to our website:

### 2D & 3D drawings

A complete library of 2D & 3D drawings are available in multiple formats upon request.

### Weatherproof versions

All basic executions of filter units are designed for internal use only. Additional weatherproof versions enlarge the scope of application for external use. When possible, this execution is stated in the options.

### Disclaimer

The mentioned prices are stated ex-works, excluding VAT and in Euros. The prices in this pricelist are for informational purposes only and are subject to change without prior notice at our convenience. Images of the products used are 3D illustrations. Small deviations are therefore possible. For delivery conditions see our website: [www.formula-air.com](http://www.formula-air.com)

## 1. Baghouse filters | 1.1 BECA filter

# BECA filter

### BECA Baghouse cyclo-filter

Air volume : 1200 up to 14000 m³/h

Vacuum : Up to 4000 Pa

Filter area : 13 up to 70 m²

Standard version painted with polyester filter media, 100 L dust bucket and E2T economizer

BECA ATEX versions Zone 22 3D available with certificates

## CFR filter

CFR compact cartridge Roto-filter

Air volume : Up to 560 m³/h  
Vacuum : Up to 5000 Pa  
Filter area : 3 to 3.75 m²

Standard with G101 filter media (vertical cartridges)  
CFR-V high vacuum version (up to 40000 Pa)

Filter unit type CFR with filter material G101 and dust bucket					
Description	Reference	# of cartridges	Cartridge size (Ø x L in mm)	Filt. surf. (m²)	Price
Filter CFR3 with G101 cartridge	IACA000001	1	325 x 500	3	1,505 €
Filter CFR5 with G101 cartridge	IACA000002	1	400 x 500	3,8	1,811 €

Filter unit type CFR -V for High vacuum with filter material G101 and dust bucket					
Description	Reference	# of cartridges	Cartridge size (Ø x L in mm)	Filt. surf. (m²)	Price
Filter CFR3-V with G101 cartridge	IACA000003	1	325 x 500	3	2,354 €
Filter CFR5-V with G101 cartridge	IACA000004	1	400 x 500	3,8	2,656 €

Filter unit type CFR with filter material G101 and dust bucket and integrated fan					
Description	Reference	# of cartridges	Cartridge size (Ø x L in mm)	Filt. surf. (m²)	Price
Filter CFR3-VT500 with G101 cartridge	IACA000005	1	325 x 500	3	2,380 €
Filter CFR5-VL750 with G101 cartridge	IACA000006	1	400 x 500	3,8	2,878 €

Description	Reference	Price
Cartridge Ø320x500 mm - PE (G101) for roto cleaning only	IAZJ000001	375 €
Cartridge Ø320x500 mm - PE AS HO (G113)	IAZJ000002	618 €
Cartridge Ø320x500 mm - PE AS + PTFE membrane (G116A)	IAZJ000003	691 €
Cartridge Ø400x500 mm - PE (G101) for roto cleaning only	IAZJ000004	626 €
Cartridge Ø400x500 mm - PE AS HO (G113)	IAZJ000005	820 €

## CQFG filter

CQFG cartridge filter

Air volume : Up to 45000 m³/h  
Vacuum : Up to 5000 Pa  
Filter area : 312 to 840 m²

Standard with G102 filter media (vertical cartridges)

Filter unit type CQFG with filter material G102 and dust bucket					
Description	Reference	# of cartridges	Cartridge size (Ø x L in mm)	Filt. surf. (m²)	Price
CQFG 312 with G102 cartridges	IAAE000001	12	325 x 1320	312	38,393 €

Change to 145/150L bucket on filter CQFG	IYAB000012	747 €
Level sensor for CQFG (72L/150L) includ. mounting	IYAB000013	1,284 €
Under frame for CQFG 312 in black steel	IZXA000001	4,092 €
Under frame for CQFG 312 in galva	IZXA000002	5,115 €

## CERV filter

CERV Rectangular filter with vertical cartridges

Air volume : 5700 up to 86000 m³/h  
Vacuum : Up to 3800 Pa  
Filter area : 80 to 1200 m²

Standard version in galvanized steel with polyester filter media, 210 L dust bucket and E2T economizer

ATEX version available (next page)

# WGWT filter

WGWF wet Collectors

Air volume: 2.000 up to to 12.000 m³/h  
Vacuum: up to 2.500 Pa

Standard version painted with fan, electric panel, inverter, droplet separator and automatic water feeding  
Also available with ATEX certified motor and spark proof nozzle for Zone 22

WGWT Wet collector		
Description	Code	Price
Wet collector complete with fan 2,2kW, electric panel with inverter, droplet separator, automatic water feeding, painted	WGWF1	15,733 €
Wet collector complete with fan 2,2kW, electric panel with inverter, droplet separator, automatic water feeding, in AISI 304	WGWF1 SS	19,511 €
Atex certified motor 2,2kW and sparkproof nozzle (price difference )		1,263 €
Wet collector complete with fan 3,0kW, electric panel with inverter, droplet separator, automatic water feeding, painted	WGWF 2	20,139 €
Wet collector complete with fan 3,0kW, electric panel with inverter, droplet separator, automatic water feeding, in AISI 304	WGWF2 SS	24,202 €
Atex certified motor 3,0kW and sparkproof nozzle (price difference )		1,503 €
Wet collector complete with fan 5,5kW, electric panel with inverter, droplet separator, automatic water feeding, painted	WGWF 3	24,545 €
Wet collector complete with fan 5,5kW, electric panel with inverter, droplet separator, automatic water feeding, in AISI 304	WGWF3 SS	28,892 €
Atex certified motor 5,5kW and sparkproof nozzle (price difference )		1,880 €
Wet collector complete with fan 7,5kW, electric panel with inverter, droplet separator, automatic water feeding, painted	WGWF 4	26,422 €
Wet collector complete with fan 7,5kW, electric panel with inverter, droplet separator, automatic water feeding, in AISI 304	WGWF4 SS	32,207 €
Atex certified motor 7,5kW and sparkproof nozzle (price difference )		1,925 €
Wet collector complete with fan 11,0kW, electric panel with inverter, droplet separator, automatic water feeding, painted	WGWF 5	31,926 €
Wet collector complete with fan 11,0kW, electric panel with inverter, droplet separator, automatic water feeding, in AISI 304	WGWF5 SS304	39,115 €
Atex certified motor 11,0kW and sparkproof nozzle (price difference )		2,821 €

Accessories for WGWT	
Description	Price
Heating resistance and electrical panel adaptation	844 €
Electricel float for low level	631 €
Sludge dredge	on request

# E-PURE ASPRA fine dust filter

E-PURE ASPRA fine dust filters

Air volume: 400 up to 10000 m³/h

Filters permanently remove 99% of the viruses and bacteria from the air. Economic, efficient, and effective air purification technology.

Standard version powder coated and galvanized steel with fan and electric panel.
